Key: These rankings indicate how well a defense has performed against wide left, slot and wide right receivers this season in terms of fantasy points allowed per game. "Perimeter" refers to outside receivers, which is wide left and wide right receivers combined. "Overall" is total fantasy points per game allowed. "FPOE" is fantasy points allowed over expected. The final column shows the defense's EPA against the pass. The darker red the number, the tougher the matchup for the WR. The brighter the green, the easier the matchup.
